RESPONSE TO RESTRICTION REQUIREMENT

Sir:

Responsive to the office action mailed December 22, 2005, applicants elects to prosecute the claims of group I, with traverse. Applicants also elect compound No. 1, disclosed at page 19, lines 19-21 as the species, with traverse.

The compounds of the formula I represent a single general inventive concept. All of the compounds represented by formula I are substituted 5' hydroxy indoles with N-oxide groups which exhibit, in addition to the common structural properties, inhibition of phosphodiesterase 4. It is not believed that it would be an undue burden on the Examiner to search additional species or related processes of preparation or method of use given the common technical features described above.

25615648.1

Applicants reserve the right to pursue any and all unclaimed or non-elected subject matter in related divisional, continuation or continuation-in-part applications.

Please charge any fees due to deposit account no: 50-0624.

Respectfully submitted

FULBRIGHT & JAWORSKI L.L.P.
